My Dear Fellow Foundrymen and Friends,

Greetings from Foundries Development Foundation (FDF).

FDF is a Not for Profit organisation established in the year 2016 by renowned foundrymen to serve the industry at large in the areas of technology support for foundries, economic sourcing through materials exchange and skill development to meet out the future needs of the industry. Coimbatore is the largest cluster in the country with close to 600 foundries in this district. The industry caters to all segments of the manufacturing sector and employs more than 150,000 people in this cluster. The updation of knowledge on technological developments in equipment, materials, processes and services among the industry personnel is essential to be competitive and efficient.

FDF has three verticals namely, Foundry Material Sourcing (FMS), Centre of Excellence for Casting Skills Development (FDFCOE) and Exhibitions/Seminars (InterFoundry). Firstly, in FMS we do raw material consolidation, materials exchange and e-Procurement. More than INR 300 cr. worth of Raw material purchases have happened through this resulting in a saving of more than 10%. Secondly, FDF is establishing a world class skill development centre in the country's largest foundry cluster, in a joint venture with Tamilnadu Industrial Development Corporation (TIDCO). In this facility, we will provide skill training to more than 1000 people every year towards making the foundry operations efficient and cost effective. Third vertical is technical competency upgradation of foundry personnel through exhibitions and seminars. As a part of this objective, Inter Foundry, Inter Diecast Exhibition has been established as a biennial event. Being the largest foundry cluster, it is essential to enhance the competency of personnel by creating awareness of the latest technologies and developments in the industry through exhibitions and seminars.

The 2nd edition of the exhibition is planned from 22nd to 24th August, 2024. We will be having more than 220 exhibitors in this edition and expecting more than 10,000 visitors benefitting in through this event. We, the members of FDF, take immense pleasure in inviting you, your associates and employees to the exhibition held at CODISSIA Tradefair Complex, Coimbatore from 22nd Aug to 24th Aug 2024 and get benefitted.

Hearty wishes and greetings,

C. Velumani,
President, Foundries Development Foundation

I am immensely pleased and honoured to welcome all the members of foundry fraternity, exhibitors, visitors, students and metal enthusiasts to the 2nd edition of Inter Foundry, Inter Diecast - International exhibition for ferrous & non-ferrous foundry industry, scheduled to be held during 22nd-24th August 2024 in CODISSIA TRADEFAIR COMPLEX, Coimbatore.

Being the mother of all industries, keeping the industry competitive is essential for the sustainability and growth of the country. Moreover, the foundry process is highly technology dependent and any enhancement in the technology related to the industry, need to be taken to the people on the floor as and when it happens. In the ever challenging, competitive business environment, keeping up to the pace of the global leaders and competitors is extremely critical. It makes us relevant to the time where we are.

To ensure the same, we, the Foundrymen of the Coimbatore Foundry Cluster wanted the industry to be connected to the latest technologies, processes, developments, services and suppliers through the concept of conducting exhibitions and seminars. Thus the InterFoundry InterDiecast is evolved by the founders and members of Foundries Development Foundation (FDF) few years back. The 1st edition of the exhibition held in August 2022 had an overwhelming response with close to 8300 visitors benefitting out of the exhibition, which had a participation of more than 180 exhibitors in 8500 Sq mtrs. To improve upon from the previous one, this year we are hosting the 2nd edition in 13,500 Sqm and with more than 220 exhibitors.

We are proud and happy to inform that the exhibition has the subsidy approval for MSME exhibitors from the Department of MSME. In the last edition more than 50 exhibitors benefitted out of the scheme. The opportunities are immense and growth potential is phenomenal. To get the maximum benefit out of the exhibition, we the Organising Committee warmly welcome you all for the Exhibition held in CODISSIA Tradefair Complex from 22nd to 24th August 2024.

Greeting and best Wishes for ever shining business and future

R. Palaniswami
Chairman Organising Committee
MD, Rangasayee Alloy Castings

Greetings from VA Exhibitions!!

Govt. of India's impetus on infrastructure development, defence and space sectors, modernization of the railways, renewable energy, capital goods, power, cement and textile markets coupled with growing demand for light weight and high technology cast components required for sectors like electric vehicles, high speed trains, defence, nuclear power plants, etc. throw enormous business opportunities at Indian Foundry Industry and in the process provides a great opportunity for Indian foundry industry to establish it self as a hub for high quality precision castings.

As a professional trade fair organizer, we intend to establish Inter Foundry & Inter DieCast as a trade platform for ferrous and non-ferrous foundries to make the most of this market opportunity by deliberating on the best of technologies and solutions available to streamline respective production processes and become competitive.

After the successful debut in 2022, the 2nd edition of Inter Foundry and Inter DieCast exhibition scheduled during August 22 – 24, 2024 at Codissia Trade Fair Complex, Coimbatore is bigger by 60% in terms of exhibition area and bigger by 25% in terms of number of exhibitors compared to the previous edition. We expect over 10,000 trade visitors to visit this edition of Inter Foundry & Inter DieCast.

We are grateful to the Foundries Development Foundation (FDF) and the Organising Committee for extending an enormous support and guidance in shaping Inter Foundry & Inter DieCast as an objective driven trade platform.

We welcome the decision makers and also hands on foundry professionals to witness the best of technologies, solutions and supplies on display by over 220 Indian, foreign and multinational companies spread over an exhibition area of 13,500 sq. mt. at Inter Foundry & Inter DieCast 2024.

Wishing all the exhibitors & visitors, a fruitful and memorable trade fair experience.

With best regards,

Ashwani Pande
CEO

Vamshidhar Gurram
Director

DiFACTO is a leading robotics and engineering firm specializing in the provision of robot-based automation solutions and services. With a strong emphasis on innovation and efficiency, we offer comprehensive turnkey solutions and adaptable modular systems utilizing a variety of industrial robots such as Articulated, SCARA, and Delta/parallel axis configurations. Our expertise spans a wide array of applications including Foundry & Forging, CNC Machine Tending, Press Forging, Arc Welding, Spot Welding, Sealant Dispensing, End-of-Line Palletizing, High-Speed Pick and Place, Sheet Metal Handling, and Vision-Based Systems.

We cater to diverse industries including Automotive, Manufacturing, Energy, Pharmaceutical, FMCG, Plastics, General Industry, and Press Stamping, addressing specific automation needs with tailored solutions.

Our major business divisions encompass,

1. Welding System (WS) division, specializing in advanced welding solutions
2. Foundry and Machine Tending (FMT) division for optimized foundry operations
3. Material Handling Solution (MHS) division ensuring efficient material management
4. Fluid Dispensing System (FDS) division offering precise fluid dispensing solutions

Additionally, our Training Academy provides comprehensive educational programs aimed at equipping professionals with the latest skills in robotics and automation technology.

DiFACTO is a unique automation supplier with expertise across many different industry segments and applications. We serve large OEMs as well as smaller 'first-time' automation users, we commission 'Greenfield' automation lines as well as 'Brownfield' automation enhancements to existing manufacturing facilities. Dependable partner with a strong legacy of delivering successful automation solutions. We deploy the latest technologies such as 2D and 3D vision systems, mobile robots, cobots, IIOT systems, virtual commissioning, and much more.

METAL AIDS is a leading innovator in the Foundry Consumables sector, dedicated to delivering high-quality products and services that meet the diverse needs of our clients. Founded in 1988, we have built a solid reputation for excellence, reliability, and innovation. Our mission is to enhance the efficiency and productivity of our customers through advanced technology and exceptional service.

At METAL AIDS, we specialize in Foundry Fluxes like Riser Sleeves, Hot Tops, Mould & Core Coatings, Diecotes and other allied Ferrous and Non Ferrous

Fluxes, Master alloys and Chemicals. Our products are designed with cutting-edge technology and rigorous quality control processes to ensure they meet the highest standards.

Our team of experts is at the heart of our success. Comprising highly skilled professionals with extensive experience in the industry, they are committed to continuous improvement and staying ahead of market trends. Their expertise allows us to offer innovative solutions tailored to the unique challenges of each client.

Customer satisfaction is our top priority, and we strive to build long-lasting relationships based on trust and mutual success. We are proud to offer exceptional customer support, ensuring that our clients receive the assistance they need when they need it.

With a strong foundation of innovation, quality, and customer-centric values, METALAIDS is poised to lead the industry into the future. We look forward to continuing to provide outstanding products and services that exceed our clients' expectations.

E-mail: mail@oilmax.co.in
URL: www.centrifugaloilcleaner.com

We are manufacturer and exporter of Centrifugal Oil Cleaning System along with Industrial Waste management products. OILMAX was started by the first-generation entrepreneur Mr. Ashutosh Gokhale in year 2010 with a mission to develop products which will conserve natural resources and help Industry to reduce maintenance expenses and improve product quality. First product developed was Centrifugal Oil Cleaning System for Automotive, Mining, Marine & industrial applications, based on Centrifuge Technology. A completely reusable product having no consumables and No recurring cost.

Product range was further expanded by adding Oil recovery Centrifuge, Coolant Sump Cleaner, Tramp Oil Recovery system, Hydraulic Oil Cleaning system, High Pressure water jet cleaner, Ultrasonic Cleaner, Compactor for marine and commercial use, Chip Compactor & Turning swarf compactor.

A PLC controlled completely automatic open bowl centrifuge is developed for the first time in India for high sludge generating applications like Aluminum Wire drawing, Grinding, Honing etc. All products are benchmarked to international standards.

High product quality, unique features and competitive pricing has ensured that exports consistently contribute over 50 % of total turnover (Export has increased from Rs 1.08 Crore to 27.25 crore in last 14 years)

Oilmax will help you to "Use your OILMAXimum", thereby helping you to save on Oil Expenses and protecting environment. Oilmax has emerged as a leading manufacturer and exporter of Oil and Coolant conservation products. These products have helped customers save millions of Litre Oil & Coolant.

Oilmax Systems Pvt. Ltd. is an ideal example of 'Make In India' initiative.

Supplied a fully automatic robotic system to Honeywell USA (2004) in competition to European and American competition and followed up similar supplies to Honda group (Indonesia and Vietnam), Toyota (Australia), BMW engine plant (Vinfast-Vietnam) Suzuki (Japan), Enkei (Japan), Kawasaki (Thailand), Proton and Daihatsu (Malaysia), and in India to Delphi group, Maruti, Tata group, Mahindra, Fiat, Kirloskar group, Bajaj group, Firodia group, Leyland group, Ucal group etc.

Received world acclaim for TEKNOSEAL from

- US Military approval I 17563 C from Dept of Navy, USA.
- UL 87 from Underwriters Laboratory, USA.
- NSF 61 from National Science Foundation, USA.
- Lloyds Register of Shipping, UK.
- Tests conducted at ARAI as per Lloyds UK.
- Received US Patent for the IMPREGSEAL fully automatic system.

Product Index

Product Index

- 1 Foundry plants and installations, planning, construction, engineering
- 2 Melting shop
 - 2.1 Cupolas
 - 2.1.1 Cupolas, coke-fi red
 - 2.1.2 Cupolas, coke less, gas-fired or oil fired
 - 2.2 Electric melting and holding furnaces (Pouring equipment see 10.1)
 - 2.2.1 Electric arc furnaces for foundries
 - 2.2.2 Induction furnaces
 - 2.2.3 Channel type induction furnaces
 - 2.2.4 Melting and holding furnaces, electric resistance type
 - 2.2.5 Hearth-type electric melting and holding furnaces
 - 2.2.6 Crucible lifting furnaces
 - 2.2.7 Bale-out furnaces, electric
 - 2.2.8 Vacuum melting furnaces other electric melting and holding furnaces
 - 2.2.9 Auxiliary holding equipment
 - 2.3 Fuel-heated melting and holding furnaces
 - 2.3.1 Crucible melting and holding furnaces, fuel-heated
 - 2.3.2 Hearth-type melting and holding furnaces, fuel-heated
 - 2.3.3 Rotary furnaces
 - 2.3.4 Bale-out furnaces, fuel-heated
 - 2.4 Auxiliary melting and melt processing facilities
 - 2.4.1 Charging plants
 - 2.4.2 Charge preheating facilities
 - 2.4.3 Electromagnetic conveying channels for molten metal
 - 2.4.4 Blowing-in equipment for cupolas.
 - 2.4.5 Oxygen addition equipment for cupolas.
 - 2.4.6 Inoculation devices, injection equipment.
 - 2.4.7 Induction stirring installations.
 - 2.4.8 Recuperators.
 - 2.4.9 Slag treatment equipment.
 - 2.4.10 Melt treatment stations.
 - 2.4.11 Inert gas installations.

- 2.4.12 Gas flushing installations.
- 2.4.13 Vacuum degassing equipment.
- 2.5 Melting & holding furnaces, accessories.
 - 2.5.1 Crucibles.
 - 2.5.2 Graphite electrodes.
 - 2.5.3 Heating wires & heating bars for electric resistance type furnaces.
 - 2.5.4 Other accessories.
- 2.6 Operating materials & supplies for the melting shop.
 - 2.6.1 Foundry coke.
 - 2.6.2 Slag-forming additives.
 - 2.6.3 Melt additives and covering fluxes for ferrous cast alloys.
 - 2.6.4 Melt additives and covering fluxes for non-ferrous cast alloys.
 - 2.6.5 Re carburizers.
 - 2.6.6 Gas, industrial.
- 3 Refractories technology
 - 3.1 Refractory materials and products, insulating materials.
 - 3.1.1 Refractory ramming mixtures.
 - 3.1.2 Refractory bricks
 - 3.1.3 Refractory gating system parts.
 - 3.1.4 Insulating materials & products.
 - 3.2 Equipment for the lining of melting & pouring equipment.
 - 3.2.1 Compaction apparatus for refractory ramming materials.
 - 3.2.3 Break-out equipment for furnace and ladle lining.
- 4 Metallic charge materials.
 - 4.1 Iron, steel and malleable iron casting.
 - 4.1.1 Pig iron.
 - 4.1.2 Scrap, scrap iron.
 - 4.1.3 Alloys.
 - 4.1.4 Alloying metals, master alloys.
 - 4.1.5 Inoculants.
 - 4.1.6 Nodularizing additions for spheroidal graphite cast iron.
 - 4.2 Charge materials for non-ferrous metal castings.
 - 4.2.1 Aluminium, aluminium alloys.
 - 4.2.2 Magnesium, magnesium alloys.
 - 4.2.3 Copper, copper alloys.

Product Index

- 4.2.4 High-grade zinc alloys.
- 4.2.5 Zinc, alloys.
- 4.2.6 Alloying metals, master alloys.
- 4.2.7 alloys for thixo casting & squeeze casting.
- 4.2.8 Non-ferrous metal scraps.
- 5 Moulding and core making.
- 5.1 Moulding machines and plants for bentonite-bonded sands.
- 5.1.1 Moulding machines.
- 5.1.2 Moulding plants, flask less.
- 5.1.3 Moulding plants with flasks.
- 5.2 Moulding machines and plants for non bentonite – bonded moulds.
- 5.2.1 Cold setting resin moulding process, equipment.
- 5.2.2 Shell moulding process, equipment.
- 5.2.3 Waterglass process, equipment
- 5.2.4 Lost-foam process, equipment.
- 5.2.5 Vacuum moulding process, equipment.

 - 7.1.2 Moulding sand mixer
 - 7.1.3 Crushing and grinding plants
 - 7.1.4 Magnetic separators
 - 7.1.5 Measuring and control equipment for moulding sand preparation
 - 7.1.6 Sand coolers
 - 7.1.7 Sand aerators
 - 7.1.8 Sand precoating plants (for shell moulding)
 - 7.1.9 Screening machines and installations (silos and hoppers see 15.7)
 - 7.1.10 Separators for chromite and silica sand, zircon and silica sand
 - 7.1.11 Moulding sand preparation, further equipment
 - 7.2 Sand reclamation, plants and machines

Product Index

- 7.2.1 Sand reclamation of clay bonded moulding sands
- 7.2.2 Sand reclamation of sodium silicate and cement bonded sands
- 7.2.3 Sand reclamation of synthetic resin bonded sands
- 7.2.4 Crushing and grinding plants for used sand
- 8 Moulding auxiliaries
 - 8.1 Pneumatic rammers
 - 8.2 Moulding auxiliaries, general
 - 8.3 Foundry tools
 - 8.4 Mould and core adhesives
 - 8.5 Cores, prefabricated
 - 8.6 Chaplets
- 9 Gating and feeding
 - 9.1 Covering compounds for feeders
 - 9.2 Breaker cores
 - 9.3 Filter elements for liquid
 - 9.4 Exothermic materials
 - 9.5 Cooling elements
 - 9.6 Strainer cores
 - 9.7 Feeder sleeves
 - 9.8 Other auxiliaries
- 10 Casting machines and pouring equipment
 - 10.1 Pouring equipment
 - 10.1.1 Pouring equipment, mechanical
 - 10.1.2 Pouring equipment, dosing
 - 10.1.3 Pouring equipment, heated (pouring furnaces)
 - 10.1.4 Ladles
 - 10.1.5 Launderers
 - 10.1.6 Pig casting machines
 - 10.1.7 Pouring equipment and plants, other
 - 10.1.8 Unheated type
 - 10.1.9 Automation for pouring equipment
 - 10.2 Die-casting machinery and plant
 - 10.2.1 Cold chamber die -casting machinery
 - 10.2.2 Vacuum die-casting machinery
 - 10.2.3 Thixo casting die-casting machinery
 - 10.2.4 Squeeze casting die-casting machinery

- 10.2.5 Warm chamber die-casting machinery
- 10.2.6 Complete die-casting plant
- 10.3 Peripheral equipment and auxiliary materials for die casting
 - 10.3.1 Ladling and dosing equipment for die casting
 - 10.3.2 Die heater / cooler units & accessories.
 - 10.3.3 Die spraying units.
 - 10.3.4 Release agents for die-casting.
 - 10.3.5 Operating & auxiliary materials for die-casting.
 - 10.3.6 Extracting equipment for die castings.
 - 10.3.7 Trimming machines for die casting.
 - 10.3.8 Trimming tools for die casting.
 - 10.3.9 Other accessories for die casting.
- 10.4 Gravity die castings machine and accessories.
 - 10.4.1 Gravity diecasting machines & plants.
 - 10.4.2 Low pressure diecasting plants.
 - 10.4.3 Operating & auxiliary material for gravity diecasting, gravity die coating.
- 10.5 Centrifugal casting machines and accessories.
 - 10.5.1 Centrifugal casting machines.
 - 10.5.2 Centrifugal casting moulds.
- 10.6 Continuous casting machines & accessories.
 - 10.6.1 Continuous casting machines & plants.
 - 10.6.2 Continuous casting moulds.
- 11 Knock-out, fettling and finishing.
 - 11.1 Knock-out
 - 11.1.1 Knock-out & cooling drums & conduits.
 - 11.1.2 Knock-out machines.
 - 11.1.3. Cooling conveyorsCooling conveyors.
 - 11.1.4 Decoring equipment.
 - 11.2 Blasting plant & accessories.
 - 11.2.1 Pneumatic blast cleaning machines.
 - 11.2.2 Airless shot-blasting machine.
 - 11.2.3 Pressure water blasting plants.
 - 11.3 Shot-blasting abrasives.
 - 11.3.1 Shot-blasting abrasives, metallic.
 - 11.3.2 Shot-blasting abrasives, others.

- 11.4 Fettling installations.
 - 11.4.1 De flashing machines.
 - 11.4.2 Sawing machines.
 - 11.4.3 Gating & feeding system separator machines & installations.
 - 11.4.4 Abrasive cut-off machines & wheels.
 - 11.4.5 Fettling facilities, other.
- 11.5 Grinding machines & accessories.
 - 11.5.1 Grinding machines, automatic controlled.
 - 11.5.2 A-type grinding machines, hand operated or mechanized.
 - 11.5.3 Hand-grinding machines.
 - 11.5.4 Grinding wheels.
 - 11.5.5 Abrasives, others.
 - 11.5.6 Grinding technology, others.
- 11.6 Fettling tools and Fettling accessories, general.
 - 11.6.1 Fettling chambers, Fettling benches, fettling cabins.
 - 11.6.2 Fettling tools and sundries.
- 11.7 Interlacing & automation of fettling shops.
- 11.8 As-cast casting inspection equipment.
- 12 Surface treatment.
 - 12.1 Enamelling plants.
 - 12.2 Paint spraying units and tools.
 - 12.3 Impregnation plants.
 - 12.4 Galvanizing plants.
 - 12.5 Surface treatment materials.
 - 12.6 Surface treatment plants.
- 13 Welding & cutting
 - 13.1 Flame cutting installations and accessories.
 - 13.2 Welding installations and accessories.
 - 13.3 Filler metals.
- 14 Heat treating and drying furnace
 - 14.1 Mould & ladle dryers
 - 14.2 core drying stoves
 - 14.3 Sand drying plants and stoves.
 - 14.4 Heat treating furnaces and installations.
 - 14.5 Burners and heaters.
- 15 Transportation & storage.

Product Index

- 15.1 Trucks, industrial
- 15.2 Cranes, hoists, rack trucks and accessories.
- 15.3 Pneumatic conveyors
- 15.4 Roller conveyors.

WITH THE MOST
ENERGY EFFICIENT
IGBT TECHNOLOGY

We are **INNOVATING FOR BETTER EFFICIENCY**

A pioneering manufacturer of the most advanced and super energy efficient IGBT Inverter technology based induction equipment in the world.

That's why we call ourselves "**ORITECH**"
(ORIGIN OF IGBT TECHNOLOGY)

We specialize in the development and production of state-of-the-art induction heating, melting furnaces, and hardening equipment for various industries including ferrous & Non-ferrous foundries and steel plants.

Our company has been at the forefront of introducing IGBT Technology in power electronics, which not only saves 10-15% energy but is also considered the most advanced and sophisticated technology in comparison to the commonly used thyristor-based induction equipment.

As the premier manufacturer of IGBT based induction furnaces, Oritech offers cutting-edge solutions that cater to the specific needs of our clients in the automobile, metal foundry, and infrastructure sectors.

A Venture of Ministry of Steel, GoI & FICCI

6th INTERNATIONAL EXHIBITION CUM CONFERENCE ON STEEL INDUSTRY

24 - 26 April 2025

Bombay Exhibition Centre (NESCO), Mumbai

EVENT HIGHLIGHTS

- » Over 300 exhibiting companies
- » Technical Sessions
- » Conference attracting Government officials and decision makers from the industry
- » Sideline meetings on key enabling factors & subjects of Indian Steel Industry
- » CEO, Round Table
- » Reverse Buyer Seller Meet
- » Meet face to face with key individuals involved in the production and processing of iron & steel (Procurement and Technical Heads)
- » Participation from Central Government, Ministries and State Governments
- » International participation and pavilions from various parts of the world
- » Plant Visits

EXHIBITORS' PROFILE

- » STEEL INDUSTRY STAKEHOLDERS
- » MACHINERY & TECHNOLOGY FOR STEEL & METAL MANUFACTURING
- » MACHINERY & TECHNOLOGY FOR MINERAL MINING & PROCESSING
- » METALLURGICAL EQUIPMENT & TECHNOLOGY
- » MINERALS
- » METAL MACHINERY & TECHNOLOGY
- » BUYING AND SOURCING MINERAL PROCESSING
- » BUYING AND SOURCING OF METAL & METAL WORKING MACHINERY

REVERSE BUYER SELLER MEET

Exclusive one to one meeting of Exhibitors with International Buyers
(Hosted Foreign Buyers from Africa, Middle East, CIS, Developing Asia including SAARC)

EXHIBITION | CONFERENCE | CEOs FORUM

A Worldwide Leader in Couplings Since 1951

Faster with 70 year's experience in the hydraulic industry, has designed and manufactured over **500 million quick-release couplings** and has registered more than 100 patents.

Our company is presently developing and producing a wide range of quick release couplings, ranging from medium to ultra-high pressures, single couplings, multi connections and casting solutions.

All faster products are designed according to international standards.

We strongly believe in continuous research for innovation. Our challenge is to increase our competitiveness by offering high quality products with agile production processes, while paying careful attention to the customer's needs. **Today, Faster is a primary force for research, design, and production of quick-release couplings for hydraulics.**

FASTER India established in 2006, having manufacturing plant at CHAKAN, PUNE with state of art of manufacturing set-up, is catering to coupling needs of every industrial sector (Agriculture, Construction Equipment, Industrial, Oil and Gas, Air Conditioning, Refrigeration, High Pressure Vehicle & Road Machine). **We manufacture variety of couplings and hydraulic products.**

Injection moulding and die casting are among the most widely used industrial processes. **Both requires a frequent change of the moulds connected to machine**, and this operation can be facilitated using quick-release couplings. Cooling and heating lines are connected to the moulds as well.

Flat face quick-release couplings ensure safety for the operators (floors don't get slippery thanks to the lack of spillage) and a cleaner working environment. A higher productivity (due to the reduction of machines downtime) and cost savings (fluids waste reduction) represent further benefits perceived by warehouse workers.

An E-commerce Exchange Platform for Global Foundry--FSC

网站 B2B WEB

Website: www.Foundry-Suppliers.Com

- Foundry-Suppliers.Com (FSC) provides an e-commerce exchange platform for global foundry suppliers and purchasers. FSC assists global casting purchasers with looking for providers, basing on our plentiful foundry experience and up-to-date database resources of global foundry suppliers. Also, FSC has set up a database of global foundry purchasers to help global suppliers develop overseas market, and recommends suitable casting purchasers for suppliers. Until now, we have promoted cooperation for many casting buyers and sellers.

megatherm
Megatherm Induction Limited

The next revolution in the foundry industry

The HYBRID static frequency converter

utilises the best of series and parallel topologies.

Unlike other topologies, here the frequency is always maintained at resonance and frequency is not used to drive power.

The new Hybrid topology utilises unique voltage doubler concept facilitating higher coil voltage.

Advantages of Hybrid topology

- Constant resonance tracking resulting in best reliability and lowest energy consumption
- Highest productivity with partial charge / even solidified metal
- Panel loss of less than 1%
- Constant power factor
- Twin-Share/Tri-Share/Multi-Share mode operations
- Gen 3 automation with remote access and auto diagnostics
- Lowest cost of ownership and cheap spare parts
